

Organic Grass-Fed Dairy Products

Always Fresh. Never Ultrapasteurized

Natural by Nature is a family-owned business that procures all of its milk from family-owned organic farmers in southeastern PA.

Our grass-fed dairy products are NEVER ultrapasteurized - a popular process that exceeds what is necessary, and is proven to reduce both the flavor and nutritional content of dairy products.

Ultrapasteurization means a longer shelf life - but not necessarily fresh. We define Fresh as having the longest possible shelf life while maintaining the highest flavor and nutritional content.
